Message to all teams.

The organization has set up a “team zone” on the large parking lot along the finish line.

This zone is indicated by signs at the entrance.

We ask you to respect this zone and to set up your team equipment only in this zone.

We also remind you that only one vehicle per nation is allowed in the zone.

The organization asks you not to set up your tents and your equipment outside of this defined area.

You can of course continue to use the classrooms provided at the school.
