16.4.015 Observation in Competition

A Classification Panel may require that an Athlete undertake Observation in Competition Assessment before it allocates a final Sport Class and designates a Sport Class Status to that Athlete.

Observation in Competition Assessment is undertaken so that the Classification Panel can complete its determination as to the extent to which an Eligible Impairment affects that Athlete's ability to execute the specific tasks and activities fundamental to para-cycling.

The athletes marked Observation Assessment who competed on this day were observed by the classification panel.
